

Settings

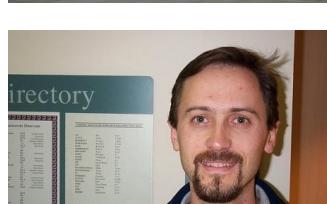

SIFT step size	default vl_sift
SIFT block sizes	default vl_sift
SIFT method	Opponent-SIFT
Vocabulary size	400 words
Vocabulary fraction	100 per class
SVM training data	50 positive, 150 negative per class
SVM kernel type	L2-regularized L2-loss SVM classification

Prediction lists (MAP: 0.5954)

Following are the ranking lists for the four categories. Please fill in your lists.

The length of each column should be 200 (containing all test images).

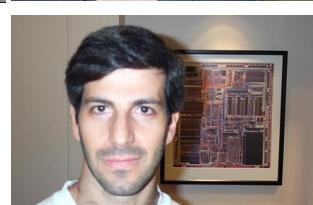

Airplanes (AP: 0.6965)

Cars (AP: 0.5690)

Faces (AP: 0.6451)

Motorbikes (AP: 0.4711)
